

METAL CASTINGS

ISO and TS Certified Modern Foundries

W.E LOTT'S 40+ foundries encompass almost every process and material available.

Offering both automated and manual operations, our management offices carefully select and audit each and every shop. If it's metal we can make it, in any size, from ounces to thousands of pounds.

We provide a full range of services including normalizing, quenching and tempering heat treatment processes, material analysis, robotic welding and multiple coating applications.
